ALCOM Narrow Style Deadlocks

The addition of the Narrow Style Deadlocks to the now extensive range of Alcom mortice locks addressed a growing market demand for high quality lockout applications.

The two versions of narrow style deadlocks are an alternative for applications such as shop front aluminium doors [opening and sliding] used on virtually any lockout application.

The features of the narrow style Alcom deadlocks include...

- Two different models each sold with either double cylinders or with single outside cylinder and inside thumbturn.
- Key operated deadlocking removable in both locked and unlocked position.
- Suits door thickness of between 32mm and 50mm.
- Standard back set of 22mm on both models.
- For end [lock bolt projection] of 37mm on deadbolt and 21mm hook reach and 29mm bolt. (Sliding door comes with slam strike box).
- Retrofits other brands of similar style locks.
- Offer all the standard features of the comparable style locks.
- Lock case and bolt are of steel construction.
- Can readily be fitted with BiLock FA5390 standard and Quick Change Core cylinders.
- On the sliding dead lock version the striker plates are supplied.
- The finish is satin chrome.
